# INTRODUCING THE OTORHINOSCOPE™ FROM OLBERON

The brand new Otorhinoscope™ is a dual purpose handheld device which adds another dimension to the traditional Otoscope for use in general practice. Using a patented disposable speculum, the Otorhinoscope™ is the essential examination and diagnostic tool for both the ear and nasal cavities.

## **DIAGNOSTIC KIT**

One device with a single speculum for both ear and nose examinations.

## **IMPROVED PATHOLOGY DETECTION**

The spreadable speculum allows monitored dilation of the aural and nasal passages.

## **GREAT VALUE**

The disposable elements reduce the number of referrals. There is improved infection prevention with no need for sterilisation.

## **EASY TO USE**

The Otorhinoscope™ is equally suitable for GPs and specialists.

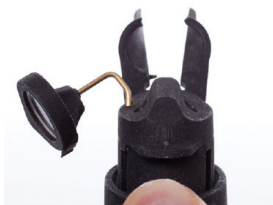

## **QUALITY INSTRUMENT**

Includes a 5 year warranty, robust alloy body with a dimmable LED light.

## FEATURES

Unique disposable speculum allows instruments through.

Dimmable LED light with automatic shut off.

Robust alloy body which is sterile and easy to clean.
